

# Comments to EFSA on the application for authorisation of genetically modified maize MON 87427 × MON 89034 × MIR162 × MON 87411 (EFSA-GMO-NL-2017-144)

## **Food and feed safety assessment**

1. VKM welcomes information on herbicide residue levels and their relevant metabolites in applications for herbicide tolerant GM-plants. Data on glyphosate and glufosinate-ammonium residue levels, including relevant metabolites, in plant material from field studies would support the assessment of food, feed, and environmental safety.
2. VKM questions whether there is sufficient knowledge on the safe use of RNAi in GM-plants.
