

Comments from the Norwegian Scientific Committee for Food and Environment (VKM) on the application for genetically modified oilseed rape Ms8, Rf3 and Ms8xRf3, for food and feed uses, import and processing under Regulation (EC) No 1829/2003 (renewal application EFSA-GMO-RX-024)

Regarding the systematic literature search presented in the application

Comment:

VKM would have liked to see the inclusion of the database SCOPUS in the systematic literature search, to further strengthen the search.
