

Comments from The Norwegian Scientific Committee for Food and Environment (VKM) on the application for maize event GA21 x T25 (EFSA-GMO-NL-2016-137)

Food and feed safety assessment

VKM welcomes information on herbicide residue levels and their relevant metabolites in applications for herbicide tolerant GM-plants. Data on glyphosate and glufosinate-ammonium residue levels, including their relevant metabolites, in plant material from the presented field studies would support the assessment of food and feed safety.
